RESEARCH OVERVIEW

My research interest in general involves the field of fluid mechanics, data science, and their applications to turbomachinery. Specific research topics include: (1) turbulence modelling for internal flows; (2) compressor aerodynamics: performance optimization, flow instability and flow control; (3) compressor aeroelasticity: non-synchronous vibration; (4) data science in fluid mechanics.

EDUCATION

09/2018 - present	Imperial College London Department of Mechanical Engineering Topic: Data-Driven Turbulence Modeling Advisor: Prof. Mehdi Vahdati, Prof. Ricardo Martinez-Botas	Doctor of Philosophy
08/2015 – 07/2018	Tsinghua University Department of Automotive Engineering GPA: 3.6/4.0, Rank: 3/60, Topic: Centrifugal Compressor Flow Instability Advisor: Prof. Xinqian Zheng	Master of Science
08/2011 – 07/2015	Tsinghua University Department of Automotive Engineering GPA: 91/100, Rank: 4/74, Honored Graduate	Bachelor of Engineering

AWARDS AND HONORS

06/2021	Young Engineer Turbo Expo Participation Award	ASME IGTI
10/2020	Henry Lester Trust Grant	Henry Lester Trust
06/2020	Young Engineer Turbo Expo Participation Award	ASME IGTI
06/2019	Student Advisory Committee Travel Award	ASME IGTI
10/2018	President's PhD Scholarship	Imperial College London
12/2017	Tsinghua-IHI Scholarship	IHI Corporation
11/2017	National Scholarship	Ministry of Education of China
07/2017	Japan Student Services Organization Scholarship	Tokyo Institute of Technology
07/2015	Honored Graduate Award	Ministry of Education of China
07/2015	Excellent Bachelor Thesis Award	Tsinghua University
12/2012	1 st Prize in the 29 th National College Student Physics Competition	Beijing Physics Society
11/2010	1 st Prize in the 27 th National High School Student Physics Competition	Chinese Physical Society

TEACHING AND TUTORING EXPERIENCE

Graduate Teaching Assistant

10/2019 – 06/2021 **Fluid Mechanics 2** (MECH95003, Imperial)
Lead tutorial sessions

Tutor for Master Theses / Undergraduate Theses / Research Intern

01/2021 – 06/2021 **Guangnan Jia** (M.S., Imperial)
Intern: Uncertainty Quantification of Turbulence Inlet Boundary Condition for Separated Compressor Flows

11/2020 – 06/2021 **Khawaja Muhammad Affan** (M.E., Imperial, co-supervised with Prof. Mehdi Vahdati)
Master thesis: Machine Learning Assisted Turbulence Modelling for Shock-Boundary Layer Interaction Flows

07/2020 – 06/2021 **Zhou Fang** (B.E., XJTU, co-supervised with Prof. Mehdi Vahdati)
Intern: Reduced Order Model of RANS Using Mode Decomposition and Machine Learning

01/2020 – 06/2020 **Jianheng Tan** (M.E., Imperial, co-supervised with Prof. Mehdi Vahdati)
Master thesis: Machine Learning Assisted Turbulence Modelling for Transonic Bump Flows

01/2018 – 06/2018 **Zitian Niu** (B.E., USTB, co-supervised with Prof. Xinqian Zheng)
Bachelor thesis: Vaned Diffuser for Centrifugal Compressors

01/2017 – 06/2017 **Wenchao Zhang** (B.E., Tsinghua, co-supervised with Prof. Xinqian Zheng)
 Bachelor thesis: Synthetic Jet for Centrifugal Compressors

01/2016 – 06/2016 **Jie Wei** (B.E., Tsinghua, co-supervised with Prof. Xinqian Zheng)
 Bachelor thesis: Tandem Diffuser for Centrifugal Compressors

PUBLICATIONS

I have authored/co-authored 12 peer-reviewed journal papers and 7 peer-reviewed conference papers, including 4 papers as the lead author in ASME Journal of Turbomachinery, ASME Journal of Fluids Engineering, and AIAA Journal of Propulsion and Power. My Google Scholar statistics are: Citation \geq 103, h-index \geq 7, i10-index \geq 4. Selected five publications of each research topic are as follows. (*: corresponding author)

Turbulence Modelling for Internal Flows

- [1] **He, X.***, Tan, J., Vahdati, M., Rigas, G., “Towards Explainable Machine Learning Assisted Turbulence Modelling for Transonic Flows,” (under review).
- [2] **He, X.***, Zhao, F., and Vahdati, M., “Detached Eddy Simulation: Recent Development and Application to Compressor Tip Leakage Flow,” ASME Journal of Turbomachinery (accepted).
- [3] **He, X.***, Zhao, F., and Vahdati, M., “Uncertainty Quantification of Spalart-Allmaras Turbulence Model Coefficients for Compressor Stall,” ASME Journal of Turbomachinery, 2021, 143(8), 081007.
- [4] **He, X.***, Zhao, F., and Vahdati, M., “Uncertainty Quantification of Spalart-Allmaras Turbulence Model Coefficients for Simplified Compressor Flow Features,” ASME Journal of Fluids Engineering, 2020, 142(9), 091501.
- [5] **He, X.***, Zhao, F., and Vahdati, M., “Evaluation of Spalart-Allmaras Turbulence Model Forms for a Transonic Axial Compressor,” GPPS Paper No. GPPS-CH-2020-0013.

Compressor Aerodynamics

- [4] **He, X.**, and Zheng, X., “Mechanisms of Lean on the Performance of Transonic Centrifugal Compressor Impellers,” AIAA Journal of Propulsion and Power, 2016, 32(5), 1220-1229.
- [5] **He, X.**, Zheng, X., Wei, J., and Zeng, H., “Investigation of Vaned Diffuser Splitters on the Performance and Flow Control of High Pressure Ratio Centrifugal Compressors,” ASME Paper No. GT2016-56255.

PROFESSIONAL SERVICES

Referee for Journals

Aerospace Science and Technology
 International Journal of Mechanical Sciences
 IMechE Journal of Power and Energy
 IMechE Journal of Automobile Engineering
 IMechE Journal of Aerospace Engineering
 Advances in Mechanical Engineering

Referee for Conferences

ASME Turbo Expo, GPPS Conference

Membership

ASME (ID: 000101977824)
 AIAA (ID: 937472)
 APS (ID: 62075782)

MISCELLANEOUS

Homeless animal charity volunteer; Amateur hiker
